Biography	Rune Dall Jensen, PhD, is associate professor in simulation-based surgical education at Department of Clinical Medicine, Aarhus University, Denmark. He is Head of Research at MidtSim, Simulation Center, Central Denmark Region and member of the AMEE Simulation Committee. Rune is associate editor in <i>Advances in Health Sciences Education</i> and <i>Advances in Simulation</i> . His research takes a holistic view on medical education aiming at easing transitions by developing health professionals who can regulate own learning to adapt to future situations.
Research (long text)	My research takes a holistic view on medical education aiming at easing both formal and informal transitions by developing health care professionals who can regulate own learning to adapt to future situations. Within this research, I have an emphasis on investigating how cognitive, interpersonal, and body-kinetic skills relate and influence each other.
Teaching (long text)	Faculty development for simulation facilitators Simulation based courses on cognitive and interpersonal skills in surgery Graduate courses on Philosophy of Science Graduate courses on research management and dissemination of research

Publications (long text)	https://pure.au.dk/portal/en/persons/runedall%40clin.au.dk
Conferences / Lectures (long text)	I have attended ICSC, SESAM, AMEE, and IMSH conferences multiple times. At these events, I have presented posters, given oral presentations, conducted workshops, and led symposiums. Additionally, I have chaired several sessions at these meetings. On various occasions, I have been honored to be invited as a keynote speaker at both national and international conferences focused on medical and surgical education. I also enjoy contributing to organizing committees and have chaired such committees on several occasions
